

# FileMaker Hosting Made Easy

## Shared Hosting

FileMaker Server 11-14

- Have access to your data **everywhere** in the office, at home or on the road
- Connect to your data from your desktop, the web or your iPad/iPhone
- Remote employees can easily connect to the system
- Reduced IT costs no need to purchase and maintain a server hardware

- Multiple data centers keep your system close and fast
- Faster bandwidth than typical in-house systems
- Secured server facilities and live server status online
- Multiple backup routines provide daily Dropbox backups and more
- Professional & Proven FileMaker experts at your service

### Starter Plan
