Mac or Windows:

Single User . . . . . \$74.95

5 User . . . . . \$337.28

10 User . . . . . \$539.64

25 User . . . . . \$1,214.19

MIXED Platforms:

5 User . . . . . \$337.28

10 User . . . . . \$539.64

25 User . . . . . \$1,214.19

## System Requirements:

(System requirements are subject to change with out notice. Please consult the web site for the latest information.)

- Windows® XP/Vista/7
- Mac OS X v10.4.11 through 10.6
- FileMaker Pro 7 through 10

Requires Adobe Acrobat 8 Standard, Professional or above to transfer data with the plug-in AND Adobe Acrobat 8 Professional to create form fields.

v5.3 03/2010

FileMaker and the file folder logo are the registered trademarks of FileMaker, Inc. in the U.S. and other countries. FileMaker images are used with the permission of FileMaker, Inc.

This powerful utility plug-in provides a bidirectional data exchange between FileMaker® Pro and Adobe Acrobat®. Whether you need to search text contained within a PDF document or extract data from PDF form fields this is the plug-in for you. Using the PDF Manipulator you can create a searchable document management system or process forms faster by eliminating the need to hand key the information into your database.

### Document Management:

The plug-in allows you to extract the text content and metadata of a PDF document directly into your FileMaker solution. Once in your database you can search through the content inside the document and even determine what page of the document the content appears on!

### Form Automation:

By using the plug-in you can insert or extract data between PDF form fields and FileMaker, speeding up and reducing the effort required to do this manually! This is very useful for industries and organizations that depend heavily on forms (government agencies, IRS, real estate and mortgage brokers, etc.).

### Combining PDFs:

Combine and delete multiple PDF documents into a single PDF from within FileMaker Pro.

The screenshot shows the PDF Manipulator interface. On the left, a 'PDF Fields Setup' window is visible with fields for Date, Name, Organization, and Total Investment. The main window displays a PDF document titled 'Sample Text (page 2)'. A red box highlights a portion of the PDF text, with an arrow pointing to a 'Field Values' table in the software. The table contains extracted data from the PDF, including page numbers, names, and dates. Another red box highlights the text 'This is a PDF document.' in the PDF viewer. A third red box at the bottom left contains the text 'This is the content of the PDF document imported into' with an arrow pointing to the 'Field Values' table. The interface also shows a 'Page Text Contents' window with a list of page contents.

**Any Questions?**

### Plug-in Information:

Successful integration of FileMaker plug-ins requires the creation of integration scripts within your FileMaker solution. A working knowledge of FileMaker Pro, especially in the areas of scripting and calculations is necessary. If after review of our overview videos, sample scripts and documentation you find you need assistance, please contact us or fill out a Request For Quote.

# Plug-In Support

After review please contact our Sales department should you have any questions as to which support option is right for you.

How do I know if my question falls under FREE or Premium Support?

#### FREE Support Questions Include:

- Does your plug-in do ".....?"
- Will your plug-in work in this "....." situation?
- What are the software requirements to use your product and what is your pricing?
- I can't get your demo to install properly, can you help me?
- I am unable to register your plug-in properly, can you help me?

#### PREMIUM Support Questions Include:

- How do I .....?
- I don't understand your documentation, your demo or your videos. Can you walk me through how to use your product?
- I have read your documentation, reviewed the scripts in your demo files and watched your videos and I still cannot get your plug-in to work correctly. Can you troubleshoot my solution to see why it isn't working?

Successful integration of FileMaker plug-ins requires the creation of integration scripts within your FileMaker solution. A working knowledge of FileMaker Pro, especially in the areas of scripting and calculations is necessary. If after review of our overview videos, sample scripts and documentation you find you need assistance, please contact us or fill out a Request For Quote. However, the following options are also available to assist you:

#### FREE Support Options:

Please note that FREE Support does **NOT** include customizations, script writing assistance or training. The following options are available to assist you:

1. **Tutorial Videos:** Located on the plug-in web sites these videos cover everything from simple demos to scripting samples.
2. **Documentation:** Each download comes complete with a documentation file.
3. **Forum:** Visit our Forum for questions and answers on all of our products.
4. **Phone & E-mail Support:** Our Support Department is available by phone Monday - Friday 8am - 5pm PST at 760-510-1200 or by e-mail at [support@productivecomputing.com](mailto:support@productivecomputing.com). E-mails will receive a response within 1 business day.

#### PREMIUM Support Options:

If you find you need additional assistance with script writing, plug-in integration or want training on the best integration method, then you have two options:

1. **Paid Technical Support:** This program allows you to work with a level two developer and is billed by the minute. A valid credit card will be required prior to transferring you to a developer.  
  
Hourly Rate ..... \$155.00/hour  
*\*\*Billed by the minute so you are only billed for the time used to resolve the incident.*
2. **Customization Services:** If you would like us to integrate the plug-in for you please fill out a Request For Quote (RFQ) form by clicking on the following URL [www.productivecomputing.com/rfq](http://www.productivecomputing.com/rfq). By completing the RFQ our developers will be able to assist you in determining the best path to reach your objective whether it be technical support billable by the minute for small jobs, consultation to plan out the best solution to fit within your budget or a full project estimate for large jobs. We want to work with you in whatever capacity that is comfortable for your budget.
